Cigna is a global health service company dedicated to helping people improve their health, well-being and sense of security. We trace our roots back more than 200 years, but we became the company you know today in 1982 with the merger of INA Corporation and Connecticut General Corporation. Ever since, we’ve continued to innovate and expand around the world. We have sales capability in 30 countries and jurisdictions, and more than 90 million customer relationships throughout the world. Our more than 39,000 employees serve customers just about everywhere. Every day, our team works together with our customers in ways they find proactive, personal and empathetic. That spirit of true partnership goes deeper than paying claims, and is often life-changing – helping customers stay well, prevent sickness, obtain access to health care, recover from illness or injury, return to work and provide for their families. Worldwide, we offer our customers and their families peace of mind and a sense of security. We’re with them all the way, through the most critical points in their lives. To learn more about Cigna®, including links to follow us on Facebook or Twitter, visit www.cigna.com.

Amazon Web Services (AWS) Worldwide Public Sector is helping government, nonprofit, and education customers use cloud services to reduce costs, drive efficiencies, and increase innovation across the globe. With AWS, you only pay for what you use, with no up-front physical infrastructure expenses or long-term commitments. Public sector organizations of all sizes use AWS to build applications, host websites, harness big data, store information, conduct research, improve online access for citizens, and more.
