2024 Public Policy Priorities: Inflection Point

Charting a Sustainable Path Forward

**LONG-TERM ECONOMIC GROWTH**

**Achieve Fiscal Stability:**
- Reduce the US debt-to-GDP ratio to 70%
- Establish a bipartisan fiscal commission
- Address Social Security and Medicare
- Reform tax laws: fairness, efficiency, simplicity

**Responsibly Leverage Technology’s Rapid Advancements**
- Business and policy leaders collaborate on establishing AI guardrails
- Enhance collaboration on protecting critical infrastructure, IP, privacy

**Successfully Implement Historic Federal Investments**
- Keep IIJA, Inflation Reduction Act, CHIPS and Science Act on schedule
- Ensure investments are sustainable, founded on market principles, and designed to catalyze further innovation
- Expand opportunities for workforce training

**RESTORE A RULES-BASED INTERNATIONAL ORDER**

**Strengthen US supply chains for resilience and redundance**
- Open trade benefits the US; deepen trade links in the Indo-Pacific
- Develop guideposts for foreign investment and export controls
- Innovation is the best strategy to maintain global leadership

**STRENGTHEN OUR DEMOCRACY**

**Ensure secure, transparent, credible, and accessible elections**
- Rapidly expanding AI reinforces the need to counter disinformation
- Public-private partnerships can restore trust in election administration, strengthen resilience against discrimination, increase confidence in the vote count, and ensure access for all eligible voters
- Nonpartisan administration of elections also promotes voter confidence

| Address long-term labor shortages: increase Americans’ participation rate and enact comprehensive immigration reform | Address pandemic-era learning loss: build the teacher pipeline, partner with business to prepare the future workforce, increase high-quality early learning | Address health care spending: attract and retain primary care physicians, teach team-based care, shift to value-based system |
