Committee for Economic Development
2022 Distinguished Leadership Awards

For more than a quarter century, CED’s Distinguished Leadership Awards have been honoring business leaders and their companies for corporate citizenship, business stewardship, and advancing public policy in the nation’s interest. The Awards recognize leaders and their companies that demonstrate a strong commitment to corporate responsibility practices and public policy in the nation’s best long-term interests and that advocate policies that address society’s key economic and fiscal concerns. The Awards exemplify CED’s mission as the public policy center of The Conference Board, and honor the legacy of its founders, and its longest-serving Trustee, Peter G. Peterson.

CED’s 2022 Annual Distinguished Leadership Awards Celebration is paying special tribute to business leaders and their companies that have demonstrated exceptional leadership in very challenging times by helping our nation navigate the many challenges before us, including: defeating the pandemic, ensuring an economic recovery that provides equal opportunity for all Americans, building a more civil and just society and upholding a rules-based international order.

Since its inception in 1942, CED has addressed national priorities that promote sustained economic growth for the benefit of all Americans. CED’s work has helped to shape economic policies and initiatives that include the Marshall Plan and the Bretton Woods Agreement; campaign finance and education reform; and, short- and long-term challenges to our nation’s economic and fiscal health. CED’s insights and solutions are shared through extensive national outreach efforts, achieving tangible impact at the local, state, and national levels.

Our nation requires committed business leadership to meet the challenges of these unprecedented times and reach the goals that we all share, including sustained economic growth and prosperity shared by all Americans. We need dialogue based on reasoned insights to address these civic challenges, and strong business leaders to support, guide, and advance solutions in the nation’s interest. CED’s Distinguished Leadership Awards continues our proud history of engaging business leaders in public policy, and recognizes the many companies and individuals who continue that legacy.

THE COMMITTEE FOR ECONOMIC DEVELOPMENT (CED) is the public policy center of The Conference Board. The nonprofit, nonpartisan, business-led organization delivers well-researched analysis and reasoned solutions in the nation’s interest. CED Trustees are chief executive officers and key executives of leading US companies who bring their unique experience to address today’s pressing policy issues. Collectively they represent 30+ industries, over a trillion dollars in revenue, and over 4 million employees. www.ced.org

THE CONFERENCE BOARD (TCB) is the member-driven think tank that delivers trusted insights for what’s ahead. Founded in 1916, we are a non-partisan, not-for-profit entity holding 501(c)(3) tax-exempt status in the United States. www.conference-board.org
